LANDSCAPE MAINTENANCE

PLOWBOY
LANDSCAPES INC

PLOWBOY LANDSCAPES, INC, AN AWARD WINNING LANDSCAPE MAINTENANCE AND LANDSCAPE CONSTRUCTION COMPANY HAS BEEN OVERSEEN BY PRESIDENT, DOUG WASSON, SINCE 1976. PLOWBOY LANDSCAPES SPECIALIZES IN LARGE COMMERCIAL PROJECTS AND ESTATE WORK. BASED IN VENTURA CALIFORNIA, PLOWBOY PROVIDES MAINTENANCE SERVICES TO ALL OF VENTURA AND SANTA BARBARA COUNTIES. NOT LIMITED TO THESE AREAS, WE ALSO CONSTRUCT PROJECTS FROM SAN LUIS OBISPO TO LOS ANGELES.

TAKING GREAT PRIDE IN OUR WORK, WE USE ONLY IRRIGATION AND PLANT MATERIAL OF THE HIGHEST QUALITY. THE PLOWBOY CREW IS EFFICIENT, KNOWLEDGEABLE, AND EXPERIENCED IN WORKING WITH ALL TYPES OF PROJECTS.

ANY COMMERCIAL BUILDING OR HOME CAN BE ENHANCED WITH LANDSCAPING. WORKING WITH PLOWBOY LANDSCAPES, INC., A LICENSED, BONDED AND INSURED LANDSCAPING CONTRACTOR MEANS YOU ARE ASSURED A PROJECT WITH AWARD WINNING POTENTIAL!

**SINCERLY,
DOUG WASSON
PRESIDENT**

LANDSCAPE MAINTENANCE PROGRAM

Plowboy Landscapes provides both commercial landscape construction & maintenance services. Our maintenance service includes some construction work as part of our contract. We specialize in taking over jobs which need renovation, are in poor condition, or are not up to par in some way.

The following is a description of our services:

1. Plowboy employs full-time on-site employees with their own equipment.
2. We are more interested in landscape horticulture, technology, design, and gardening than simply clean up.
3. Management is the key to landscapes maintenance. Therefore we have a supervisor visit sites daily.
4. Owners, managers, gardeners receive a written report each month.
5. Our contract is all-inclusive, without extra cost. Clients only pay extra for irrigation mainline parts, electrical repairs and tree work over 20' high.
6. Plowboy will extend irrigation, renovate planters, plant new trees and shrubs and other projects at no addition cost. Clients only pay wholesale price of items.
7. We have a practical, conservationist approach to our work. Landscaping should be centered around renewable, self-sustaining approaches to our environment.
8. Our services include :
 - Water Management
 - Reduced Chemical Use
 - Plant Selection
 - Green Waste Management
 - Integrated Pest Management
 - Use of All Organic or Natural Pesticides, Herbicides, Sprays & Fertilizers

“ WE TAKE GREAT PRIDE IN OUR WORK AND USE ONLY IRRIGATION & PLANT MATERIAL OF THE HIGHEST QUALITY. ”

LANDSCAPE MAINTENANCE AND LANDSCAPE CONSTRUCTION POLICY STATEMENT OF THE SUSTAINABLE LANDSCAPE

Whether we call it the built environment, the managed habitat, or the sustainable landscape, our job is to create and maintain it. This work involves the design, installation and maintenance of landscapes that meet our present needs but minimize future expense or damage.

This is a conservationist approach, with an eye to practical concerns. The protection and enhancement of natural systems and resources must be balanced with economic production.

We continue to improve and upgrade our product, which helps save time and money, as well as build a better landscape.

The sustainable landscape reduces the amount of resources required for development .
Here are some of the area of concern:

- All Organic or Natural Chemicals
- Water Management
- Reduced Chemical Use
- Green Waste Management
- Plant Selection & Spacing
- Integrated Pest Management
- Biological Controls
- Mulching
- Soil Amendments
- Native Plants
- Machine Use
- Conservation of Wildlife Habitat
- Recycling
- Pollution Control
- Natural Aesthetics
